

THE INSTITUTE OF RADIO ENGINEERS, INC.

TO: Members of Administrative Committee of PGRFI
FROM: R. M. Showers, Chairman, PGRFI
SUBJECT: Formation of new PGRFI Chapter
DATE: October 31, 1960

IRE Headquarters has informed me that a petition has been received for formation of a Chapter of PGRFI in the San Francisco Section of the IRE. The organizer of this Chapter is Mr. Peter F. Spencer. The petition was approved by the San Francisco Section Executive Committee at its meeting on September 26.

I would like the approval and/or comments of the members of the Administrative Committee of PGRFI on this petition. Replies must be received by November 10, so they may be forwarded to Headquarters in time for the Executive Committee Meeting. If I have not heard from you by that date I will assume that you are in agreement.

R. M. Showers

IN REPLY REFER TO

1 November 1960

Mr. M. Kant
Sperry Gyroscope Co
Mail Station I-37
Great Neck, N.Y.

Dear Mr. Kant:

It is fortunate that Dr. Showers sent you a copy of his letter to me regarding the nominating petitions. I am glad, too, that you notified Mr. Daniels of the discrepancy, since he was about to go to press. Considerable confusion has thus been avoided.

Ralph was probably quoting from memory or from notes that resemble those I usually come home with!

Rex plans to print the revised articles in full. I think this is a good plan and should have been arranged for at the meeting in Chicago.

I have suggested to Ralph that Mr. Radmacher (Industry & West Coast) and Mr. Blakely (University) be added as members of the Nominating Committee. My personal feeling is that we should make some attempt to maintain a degree of balance between Industry, Government and University representation. Ralph has also suggested that perhaps a balance between Industry's Management and Engineering would be desirable. That may be a little harder to delineate. These thoughts are completely unofficial and as Chairman of the Nominating Committee, I am refraining from further expression, at least until after the election.

Sincerely,

Harold E. Dinger
