22. Next meetings (continued)

Mr. Winton said that the following possibilities exist for a venue for the next Committee meeting: the Finland Section, but the meeting should be held at the latest in October, and this would leave too long a time interval before the Tel Aviv meeting in May; Prof. Bernardi would discuss with the incoming Chairman of the M & S Italy Section the possibility of holding the meeting in Rome; if this is not possible Prof. Civalieri would consider whether the meeting could be held in the N Italy Section, possibly Milan or Turin; in case neither of these venues were possible, Dr. Maaninen would advise him within the next month whether the incoming Benelux Section Chairman would agree to arrange the meeting, possibly in Brussels.

The following dates for the next meeting were agreed: first choice, 21 - 23 November; ~~second choice, 14 - 16 November~~; third choice, 28 - 30 November.

Items for inclusion on the agenda for the next meeting must reach Mr. Poortvliet not later than 5 October.

*Revised Feb 3/24-31/80*  
Mr. Winton said that as regards other future meetings, Dr. Richter would be glad to issue an invitation when the problems of starting Austria Section were settled. Prof. Tallqvist invited the Committee to meet in Finland in May 1983, but understood that this could not be definitely accepted until it is known if MELECON will be held again in 1983. *6*

Members thanked all those Sections which were interested in trying to arrange a meeting of the Committee.

23. Closure

Mr. Poortvliet thanked Prof. Proebster for making such excellent meeting arrangements, and also thanked members for their attendance.

THIS COPY FOR

GLORIA - Please let Ms. Lech know if the Austria Section has been formed. Please let her have details, so a letter can be written to Winton to clarify this matter. Thank you.

R. Tabak

May I have your reply by 6/6/80.

13 May 1980

18. Follows  
Prof. Tegopoulos said that in 1979 there had been 273 Fellow submissions, of which 47% (128) had been elected. Twenty of these submissions came from Region 8, and 81% (16) had been elected.

19. Membership

*Region 8 Feb 2, 1980*  
Mr. van der Wulp said that in 1979 Region 8 had had the second highest percentage membership increase of any IEEE Region; 30% of the new members were students. Membership increase was especially good in the Benelux, Denmark, Finland, France, Germany, Greece, N. Italy, M & S Italy, Poland and Sweden Sections. Sections which should give more attention to student membership are the Egypt, Switzerland, Yugoslavia and UKRI Sections.

*Pat Lech*  
His policy for new non-student members is to promote membership at conferences such as the 11th Convention in Israel and EUROCON 80. He hoped that at future conferences this could be done by persons responsible for membership development in the Section. Section Chairmen should appoint such persons if they did not already exist.

*Pat Lech*  
Mr. Winton said that the Spain Section Chairman had not received any mailing on the grounds of non-payment of dues, and this had penalised the Section members. Mr. Poortvliet said he had asked M/s Pat Lech, Director of Field Services, to ensure that this did not happen again.

Mr. Poortvliet said that mailing SPECTRUM costs \$5 - \$6 annually per subscriber; air mailing individual copies would cost far too much (an additional \$10), but Mr. Herz is investigating how delivery can be speeded up. Prof. Williams said he would discuss the question of air freighting in bulk and distributing in Region 8 during a forthcoming visit to Headquarters.
